# What is Exby?

Exby is an innovative arbitrage trading platform that allows users to benefit from the differences in rates among the various cryptocurrency exchanges, avoiding time-consuming and tedious market research in an attempt to find a good opportunity. Exby allows everyone to earn quickly and securely thanks to its features and functions and through access to the most popular currency pairs.

# Key Features

Exby is designed to stand out among its competitors and it is therefore a platform that values customer satisfaction, with the addition of transparency, reliability and security. Users can take advantage of state-of-the-art features that we can summarize in 3 major ones.

## Profit-generating tools

Exby's tools allow users to conduct quick market analysis and find the best opportunities for the maximum profit from every trading transaction. More than that, Exby offers auto trading solutions and liquidity farming pools.

## Strategic Agreements

Exby cooperates with the most popular cryptocurrency exchanges and offers to trade with over 20 coins. Deep market analysis and expert trading strategies allow us to offer both short- and long-term trading and farming contracts, ensuring daily payments to users' accounts.

## Guaranteed privacy

We value the privacy of our users, protecting their confidential data and funds deposited to our platform. Exby is an officially registered company which means it operates solely legally in accordance with the law.

# Exby's trading tools

At Exby we have 2 types of trading with different characteristics: Manual Trading and Auto Trading.

## Manual Trading

Take control of your trades and make informed decisions with our user-friendly tools and resources. Select the most profitable options among all the currencies and exchanges offered and get the highest return.

## Auto Trading

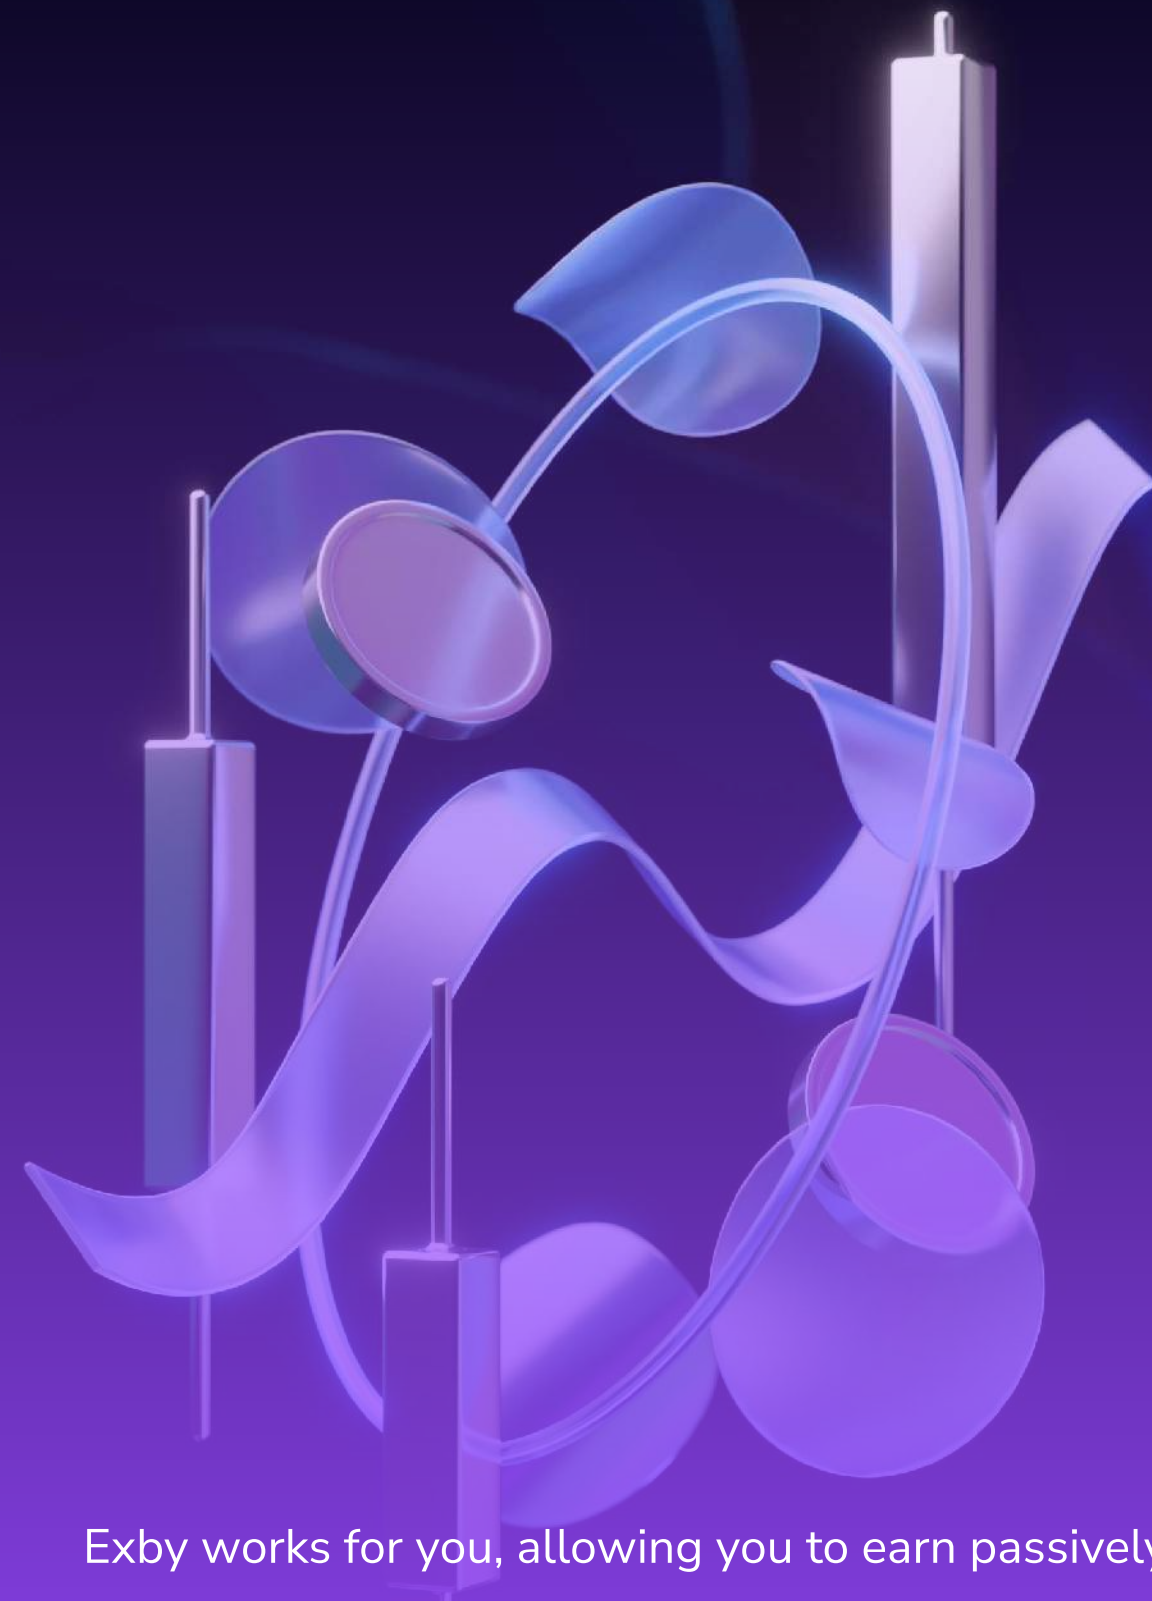

Maximize your profits with our automated arbitrage trading solutions. Our cutting-edge technology buys and sells [BTC](#), [USDT](#), [XRP](#), [LTC](#) and other cryptos across world's biggest platforms such as Binance, Kraken, etc. delivering risk-free and high returns to clients.

# Advantages of the arbitrage trading

Arbitrage trading permits great profits, but it requires experience and a lot of market study as it is based on changes in market rates that occur quickly and unpredictably.

Exby works for you, allowing you to earn passively  
with the minimum risk!

# Exby's Advanced tools

Exby offers four really profitable earning tools accessible to all users.

## Manual trading:

With Exby, you have all the info about market prices in one place.

Take advantage of the Exby tools to analyze rate and price changes. Users can select the most profitable options from the various currency pairs and trade consciously.

## Liquidity farming:

Users earn passive profits by contributing to the liquidity pools, ensuring a smooth and seamless platform operation.

A win-win strategy since users earn proportionally to their contribution amount while Exby improves the platform liquidity and provides timely payments having reserves for emergency cases.

## Auto trading:

Trades are carried out automatically by our trading algorithms.

Users do not have to do anything. Algorithms identify arbitrage opportunities and open and close trading transactions at the appropriate time, ensuring maximum profit.

## Referral program:

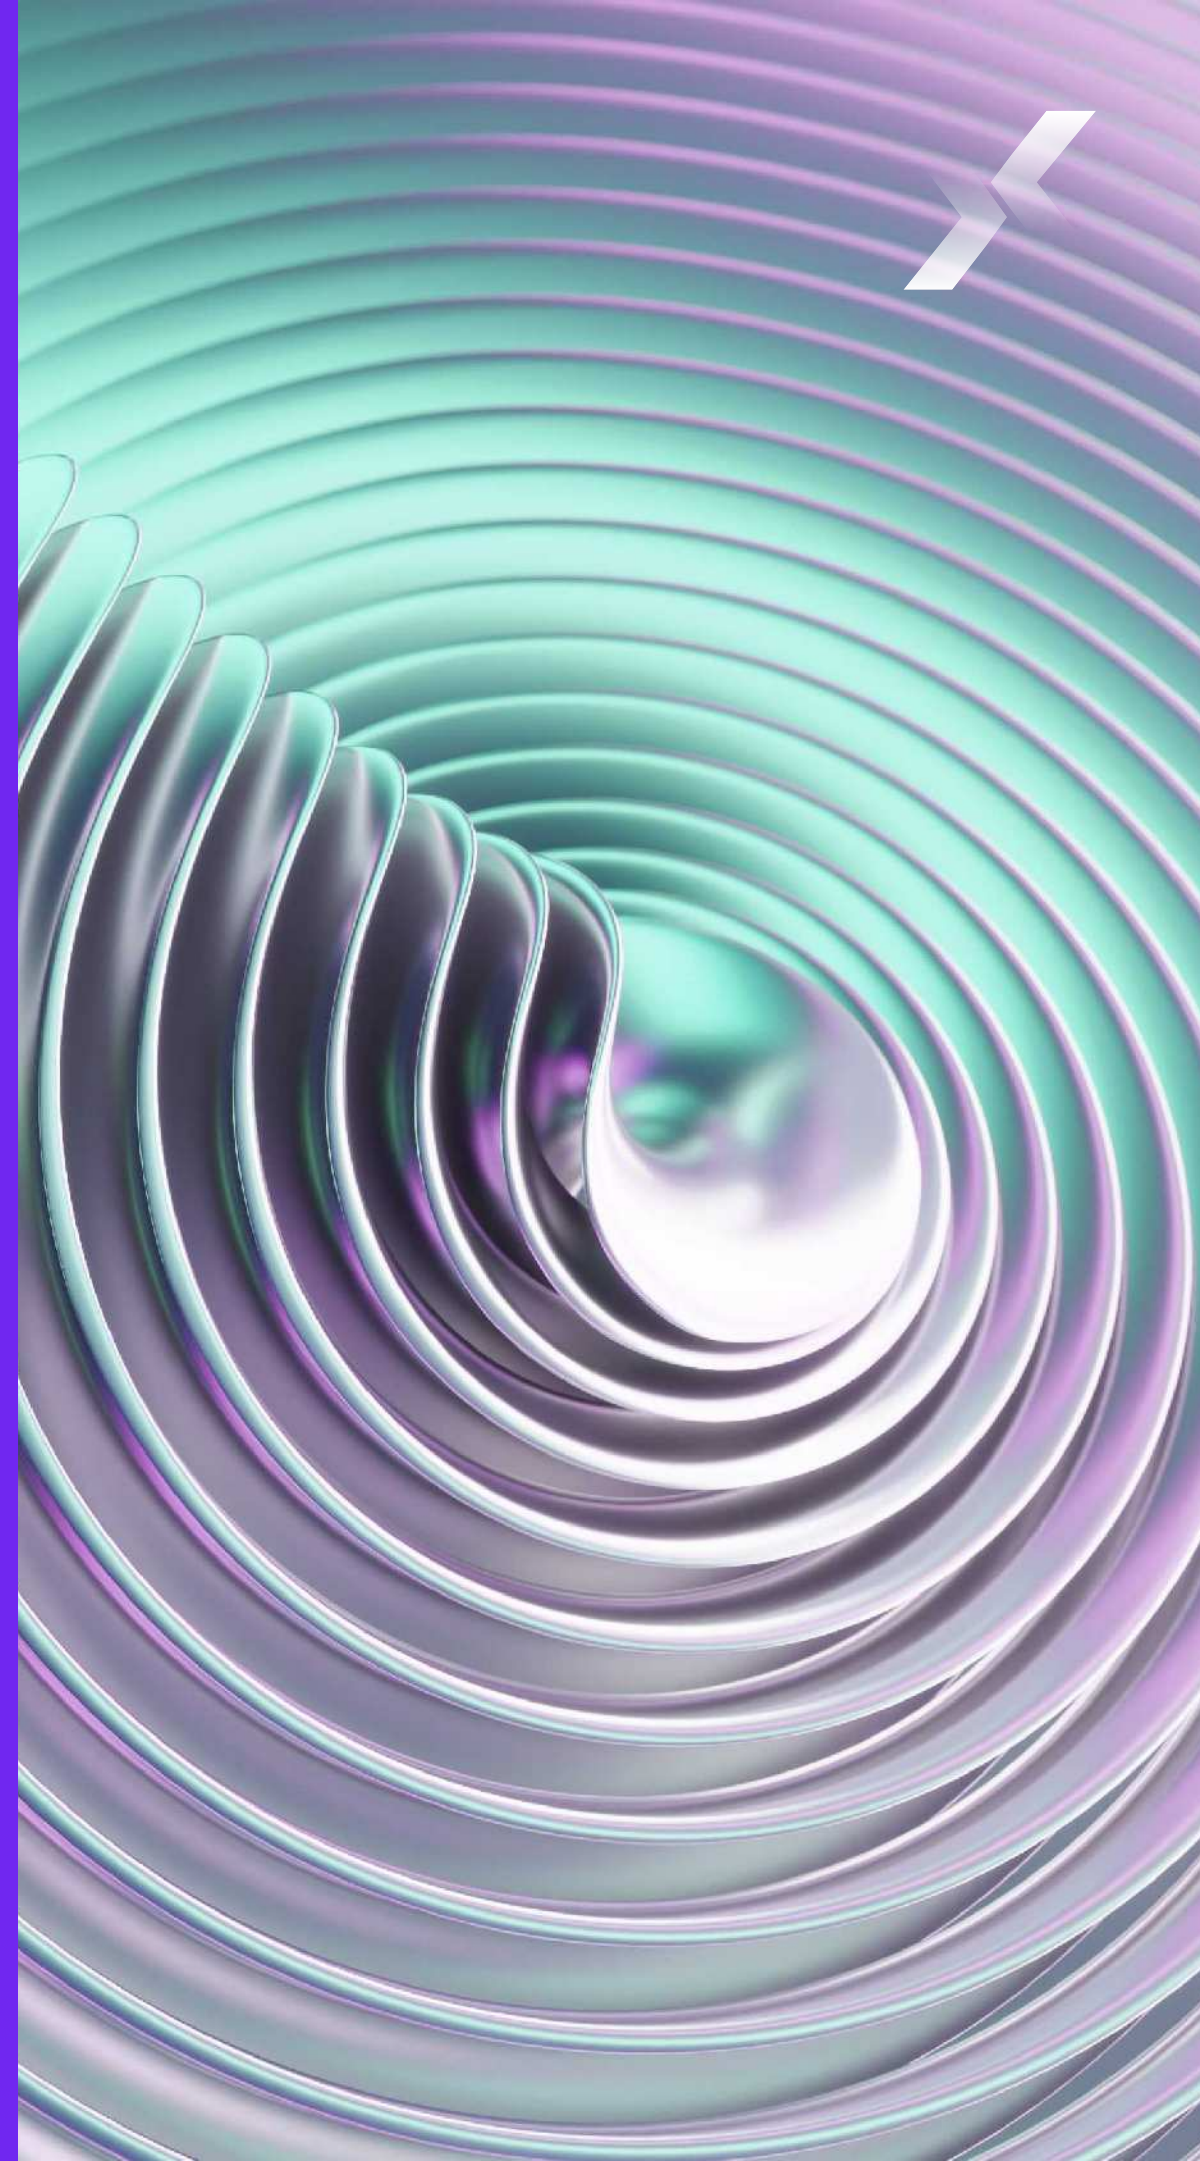

Users earn from 0.5% to 10% by inviting other people to join Exby through their links.

Five levels of referrals, three sources of income, and limitless passive income opportunities.

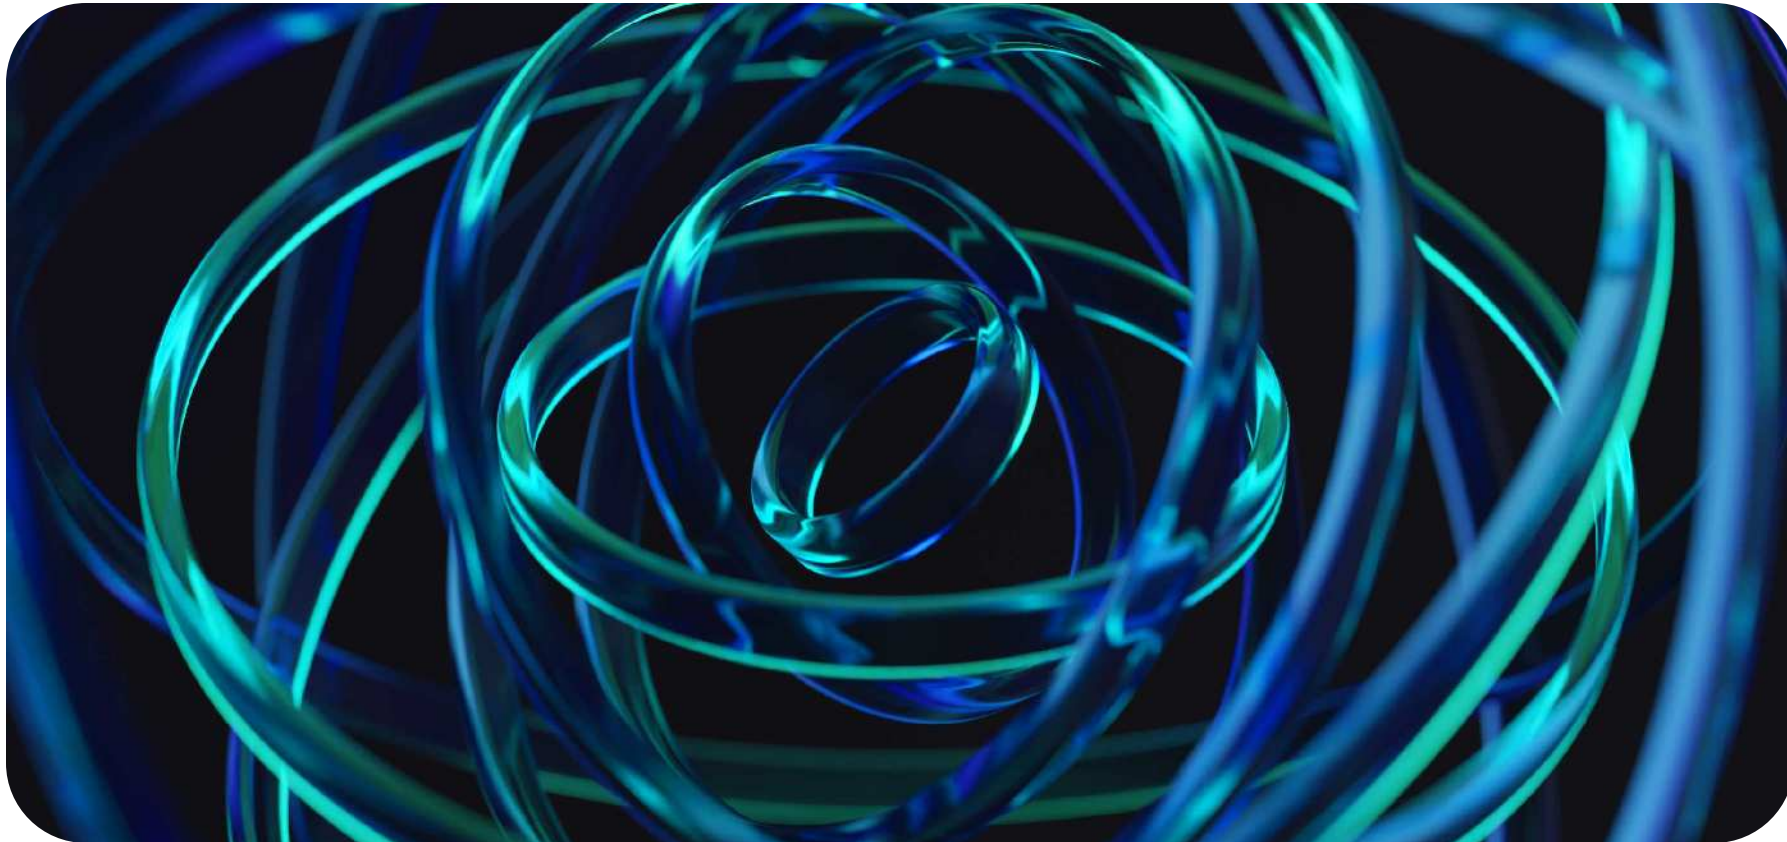

# Liquidity farming: Contributing to pools to earn commissions

Exby makes use of liquidity pools for multiple purposes. It enables the platform to offer numerous advantages, including the highest order processing speed and the chance to open/close trading positions at appropriate times for maximum profits. Therefore, Exby rewards its clients who contribute their funds in the different pools with various commissions.

# Referral Program in detail

All users can participate in our Referral Program. It is easy to start and demands literally nothing but just sharing a referral link. Invite your friends or subscribers through your link to join our platform and use our tools.

Our Referral Program consists of 5 levels. The more users you invite, the more passive income you get. You also receive rewards from the referrals invited by your partners.

Level		Commission	
1		10%	
2		2%	
3		1%	
4		0.5%	
5		0.5%	

Referrals allow you to receive passive profits from 3 different sources:

- Commissions from referrals' trading profits: 0.5-10%
- Liquidity farming profits: 0.5-10%
- Plan purchase: 10% of a plan price

Users can withdraw the amount obtained through the affiliate program or decide to use it for trading or liquidity farming.

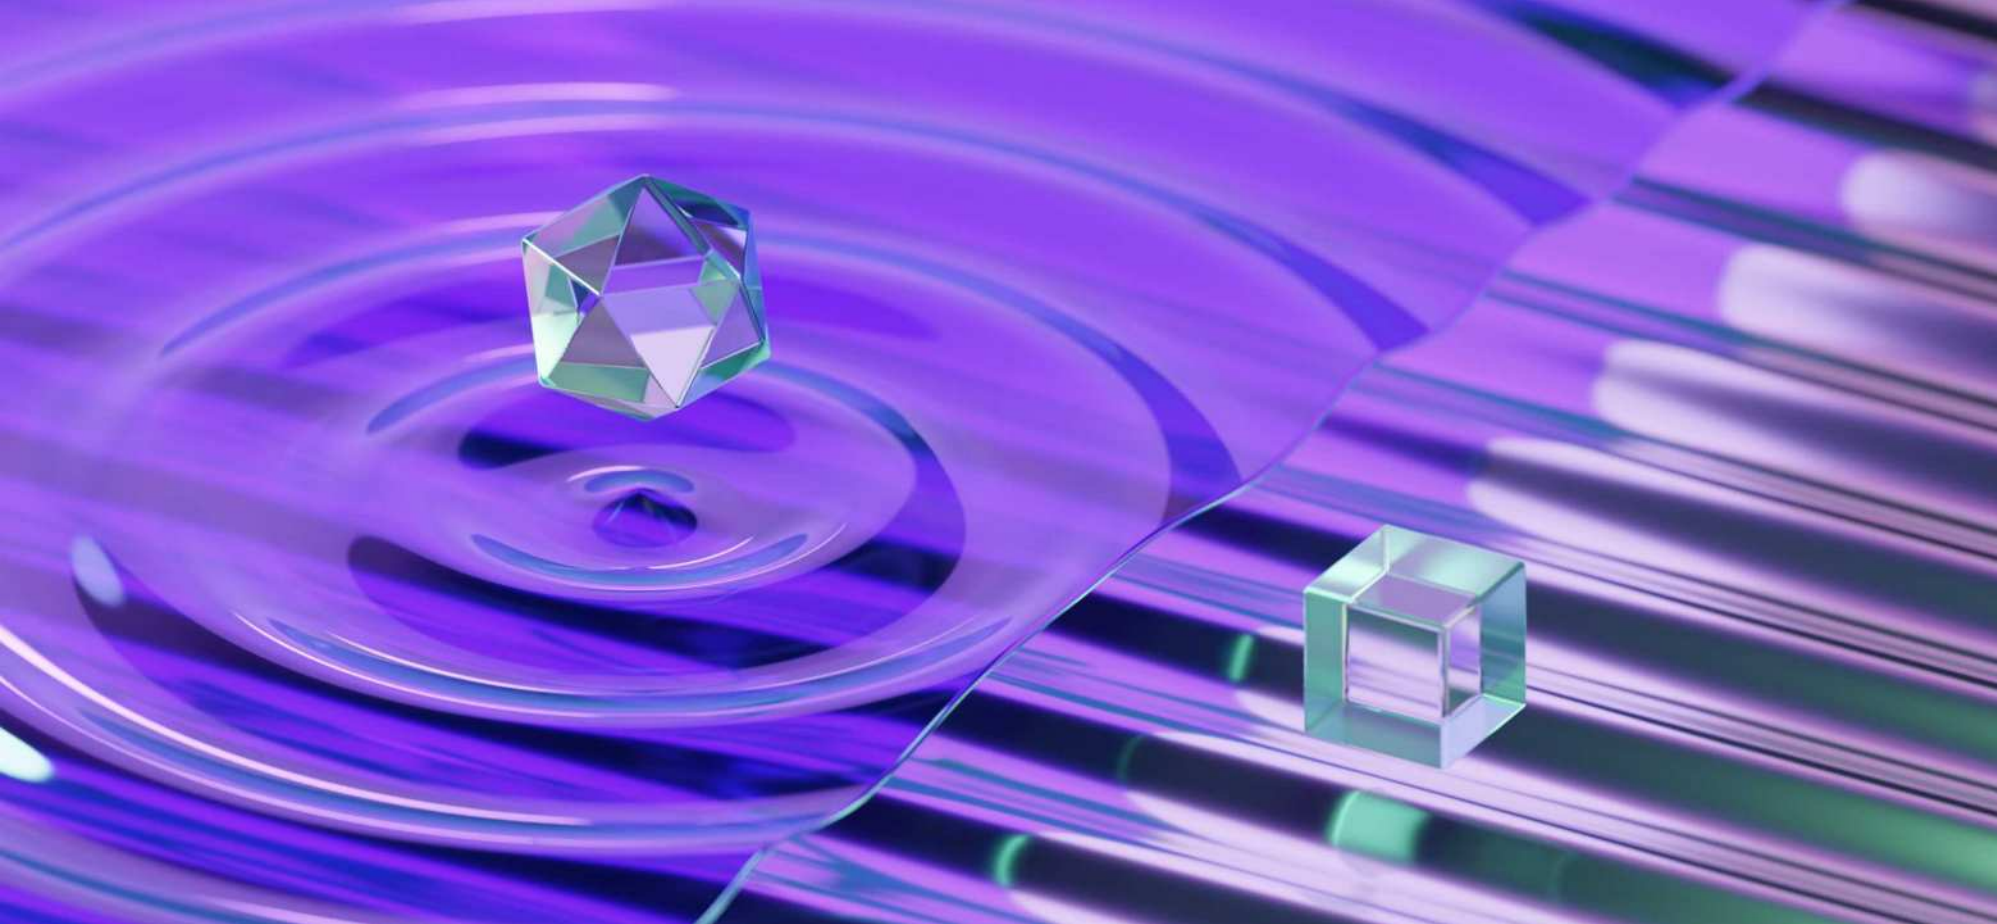

# Promo materials

To facilitate the appeal to new users to enlarge the Exby community, the platform provides everyone with promo materials such as promo texts, banners, presentations, brand books, texts for blogs, etc.

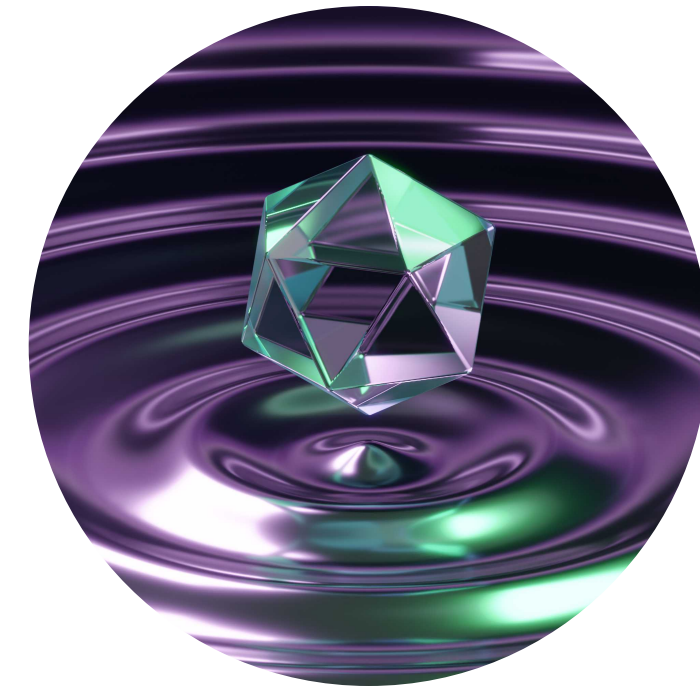

# Types of account: Standard and Premium

We have 2 different types of accounts available at Exby:

Standard account: available to all users once they have signed up to Exby which allows them to use basic Exby's features.

Premium account: this is available by upgrading the basic functions. It allows users to benefit from many exclusive features, including lower commissions, access to a higher range of exchanges, increased daily orders amount, and much more.
